

P₁ ACCLIMATION

- *Perfect for the first time reefer or new tank setups
- *Shorter than normal photoperiod
- *Minimal day light and UV settings applied

P₂ MIXED REEF

- *Optimal for a mixed reef of soft and hard corals
- *Longer photoperiod, however less UV than normal
- *Most popular “One size fits all” setting

P₃ SPS REEF

- *A solid foundation for your SPS dominant reef
- *Longer photoperiod with stronger daylight and heavy UV spectrum
- *Tried and tested by coral farmers and reefing enthusiasts worldwide
